SUMMARY

Hello, my name is Putri Yasmina Rahma Zain. I was born 22 years ago in Jakarta, Indonesia 18th December. I have parents and two siblings that I will value for a long time. When I was young, I have no definite dreams of who I wanted to become. Once I wanted to become a scientist, at another moment I dreamed as a soldier. Forsake to define my future goals and encourage myself, my parents support any positive activities and open up great opportunities for me to try a lot of new things. As a result, I am already experienced and participated in many things since my elementary years, such as math competitions, public speech, drawing and painting lessons, private piano lessons, and even some tennis matches. These activities make me enjoy topics related to design and drawing, learning new languages, sports, and music.

As a Muslim woman, I went to some Islamic schools and spent my high school years at a private boarding school. During my high school years, I studied many Islam knowledge, such as hadith and fiqh, and memorized Holy Al-Qur'an. After graduating, I enrolled in some public and private colleges and Alhamdulillah ended up entering the University of Indonesia with a software engineering major. Currently, I am finishing my study at Asia e University in Malaysia and majoring in information and communication technology.

Speaking of the most important things that happened to me, I am willing to answer that entering a boarding school is the most important and unforgettable moment in my life. In my family history, no one has ever attended a boarding school and that makes me the first who went to one. I am not saying that it is a very pleasant nor an exciting experience, but I gained a lot of life lessons and valuable things during my junior and senior high school times. Held a national coverage event and competition, met and befriend friends from various regions and countries, and gained valuable religious knowledge which is rare to find nowadays. Everything obtained from there have a very personal value and meaning for me.
